PHANTOM & MATTE **BLACK**

GROHE BLACK COLLECTION

A BOLD EXPRESSION

A true timeless classic that convinces through sleek simplicity and elegance paired with a certain feel of sophistication and luxury. Black can be paired with light colors or natural materials to create contrast and prevent overwhelming darkness. Playing with natural and artificial lighting ensures that the space remains bright and welcoming. GROHE offers the new go-to color in two variants: The powder-coated Matte Black which is the ideal economical choice for everyday use at home and the more sophisticated, lacquer-coated version Phantom Black.

NEXT LEVEL COATING **GROHE PHANTOM BLACK**

With Phantom Black, GROHE offers a sophisticated darker color option which at the same time guarantees lasting durability. Thanks to a lacquer-coating technique, all GROHE Phantom Black products have been enhanced to be more durable, as well as being more resistant against corrosion, fading and scratches than Matte Black variants treated with powder coating. In addition, Phantom Black is more repellent to visible fingerprints. So, they require less cleaning and are easy to take care of – perfect also for hospitality environments.
